Results you can stand behind

Automated drug testing with Thermo Scientific Indiko Plus Analyzers

Reliable, easy-to-use Thermo Scientific™ Indiko™ Plus benchtop analyzers offer high throughput test results with automated features designed to minimize human error. For fast, consistent test results that keep your lab on track.

Broad menu

Whether your lab calls for **ready-to-use convenience** or **specialized testing panels** adapted to your needs, we offer high-performance testing options to fit your situation.

- **Streamline your lab operations** with a single supplier and reduce send-out costs.
- **Standardized tests guarantee reliable performance** with Indiko system reagents.

Minimal maintenance for maximum uptime

A robust system design and durable components mean <1 service visit per year, on average. Stay on schedule with only five minutes of daily upkeep and one yearly preventative maintenance visit.

The Indiko maintenance formula for maximum uptime of your analyzer:

5 min/day | **15** min/week | **30** min/month

Specimen validity testing reagents

The use of additives and adulterants to mask controlled substances in urine samples is a difficult and ongoing challenge to drugs of abuse screening. Our DRI Specimen Validity Tests (SVT) are liquid, read-to-use and offer an easy way to detect sample adulteration.

- CEDIA™ Sample Check
- DRI™ Creatinine-Detect
- DRI pH-Detect
- DRI Gravity-Detect
- DRI-General Oxidant-Detect
